YEAR OF FAITH 2012-2013

### YEAR OF FAITH

After the entrance antiphon the Mass begins with the Sign of the Cross, which recurs in different forms during the course of the Eucharist. The Sign of the Cross goes back to the early years of the Church and is a reminder to us of the sacrifice made by Christ for our salvation. It also reminds us of our belief in the Holy Trinity by signing ourselves from head to heart and shoulder to shoulder while saying the names of the Three Persons in the One God. Later it takes a different form at the beginning of the Gospel when we make a cross with our thumbs on our foreheads, lips and heart, signifying that we believe with our minds, proclaim with our lips and love with our hearts the Word of God. During the course of the Mass the priest uses different forms of the Cross, for example before the Words of Consecration he. Then at the end of Mass the priest gives us a final blessing invoking the Holy Trinity, before we depart to proclaim to others by the way we live our lives the beauty and fullness of our Catholic Faith. Let us resolve that, as we bless ourselves with the names of the Three Persons in the Holy Trinity, we will try to concentrate on the meanings of the words we are saying and love the one true God.

### FEAST OF THE WEEK:

We celebrate the feast of **St. John Plessington** (1637-79) on Friday, 19<sup>th</sup> July. He is a saint very closely associated with the Chester area. He was born near Blackburn, educated by the Jesuits and ordained a priest in Spain in 1663 - during England's penal times. The following year he returned to this country, working undercover as a missionary priest over a period of about 15 years, first at Holywell and then at Puddington. He was finally arrested and charged with being a priest, in the wake of the "popish plot". He was imprisoned in Chester Castle and executed at Gallows Hill, now Barrel Well Hill, Boughton, on 19<sup>th</sup> July 1679, his remains later buried in Burton churchyard.

Last week, our week-early mention of St. John Plessington led us to omit reference to the very significant **St. Benedict** whose feast was on 11<sup>th</sup> July. He was born around the year 480 in Umbria. He studied in Rome but left before completing his studies to become a hermit. He spent many years in solitude before establishing a number of small communities of monks. In 529 he founded and directed the monastery of Monte Cassino, and there wrote the final version of his "Rule". This was simple and profound: a "school of the Lord's service, in which we hope to order nothing harsh or rigorous". He was not a priest, but his achievement was to produce a monastic way of life which was complete, orderly and workable, and for which he is known as the "Father of Western Monasticism". He is named as a Patron of Europe.
